Statement of commitment to child safety

Yea High School is a child safe organisation which welcomes all children, young people and their families.

At Yea High School our values guide the decisions and behaviours of all members of our school community, including in relation to child safety:

- Respect – for ourselves and others
- Trust – Demonstrating ownership of our actions and words. Being accountable for our actions.
- Acceptance – Caring for, understanding, accepting, and appreciating ourselves and others.

We are committed to providing environments where our students are safe and feel safe, where their participation is valued, their views respected, and their voices are heard about decisions that affect their lives. Our child safe policies, strategies and practices are inclusive of the needs of all children and students.

We have no tolerance for child abuse and take proactive steps to identify and manage any risks of harm to students in our school environments.

We promote positive relationships between students and adults and between students and their peers. These relationships are based on trust and respect.

We take proactive steps to identify and manage any risk of harm to students in our school environment. When child safety concerns are raised or identified, we treat these seriously and respond promptly and thoroughly.

Particular attention is given to the child safety needs of Aboriginal students, those from culturally and linguistically diverse backgrounds, international students, students with disabilities, those unable to live at home, children and young people who identify as lesbian, gay, bisexual, trans and gender diverse, intersex and queer (LGBTIQ+) and other students experiencing risk or vulnerability. Inappropriate or harmful behaviour targeting students based on these or other characteristics, such as racism or homophobia, are not tolerated at our school, and any instances identified will be addressed with appropriate consequences.

Child safety is a shared responsibility. Every person involved in our school has an important role in promoting child safety and wellbeing and promptly raising any issues or concerns about a child's safety.

We are committed to regularly reviewing our child safe practices, and seeking input from our students, families, staff, and volunteers to inform our ongoing strategies.

Specific staff child safety responsibilities

School leaders will ensure that each person understands their role, responsibilities and behaviour expected in protecting children and young people from abuse and neglect. Staff will comply with the school's Child Safety Code of Conduct, which sets out clearly the difference between appropriate and inappropriate behaviour.

Specific child safety responsibilities:

- The Principal is responsible for reviewing and updating the Child Safe policy every 2 years
- The Assistant Principal is responsible for monitoring the school's compliance with the Child Safety policy. The school community should approach the Assistant Principal if they have any concerns about the school's compliance with the Child Safety policy.
- Principal is responsible for informing the school's community about this policy, and making it publicly available.
- Other specific roles and responsibilities are named in Yea High School's other child safety policies and procedures, including the Child Safety Code of Conduct, Child Safety Responding and Reporting Obligations (including Mandatory Reporting) Policy and Procedures and risk assessment.

Child Safety Code of Conduct

Our Child Safety Code of Conduct sets the boundaries and expectations for appropriate behaviours between adults and students. It also clarifies behaviours that are not acceptable in our physical and online environments. These expectations are the same across all campuses.

We ensure that students also know what is acceptable and what is not acceptable so that they can be clear and confident about what to expect from adults in the school.

The [Child Safety Code of Conduct](#) also includes processes to report inappropriate behaviour.

Managing risks to child safety and wellbeing

At our school we identify, assess and manage risks to child safety and wellbeing in our physical and online school environments. These risks are managed through our child safety and wellbeing policies, procedures and practices, and in our activity specific risk registers, such as those we develop for off-site overnight camps, adventure activities and facilities and services we contract through third party providers for student use.

Our Child Safety Risk Register is used to record any identified risks related to child abuse alongside actions in place to manage those risks. Our school leadership team will monitor and evaluate the effectiveness of the actions in the Child Safety Risk Register at least annually.

Every Yea High School event (inclusive of AYCE) documentation includes a risk assessment to reduce or remove the potential risk of harm. Prior to attendance, all third party agencies provide documentation including individual staff accreditation, a risk assessment of the venue and activities to minimise the potential risk of harm to students.

Appropriate supervision is applied according to DET ratios and activity type is taken into consideration.

Yea High School

Child Safety Policy

Yea High School provides restricted access to students via the school's network. All students and parents on enrolment at all campuses must sign a cyber-safety and acceptable use agreement prior to gaining access to the local network. This document is comprised of two sections;

- Section 1: Cyber-safety in the Yea High School Environment
 - 1A) Important School Cyber-safety Initiatives
 - 1B) General Cyber-safety Rules
- Section 2: Information Specifically for Yea High School Students
 - 1A) Additional Information
 - 2B) Additional rules/responsibilities

Yea High School's Health and Personal Development curriculum at all campuses provide explicit teaching regarding cyber-safety and where necessary address concerns as they arise.

Yea High School engages the Victorian Police to promote online safety and minimise potential risk.

Establishing a culturally safe environment

At Yea High School, we are committed to establishing an inclusive and culturally safe school where the strengths of Aboriginal and Torres Strait Islander (TSI) culture, values and practices are respected.

We think about how every student can have a positive experience in a safe environment. For Aboriginal and TSI students, we recognise the link between Aboriginal and TSI culture, identity and safety and actively create opportunities for students and their community to have a voice and presence in our school planning, policies, and activities.

We have developed the following strategies to promote cultural safety in our school community:

- All Aboriginal and TSI students have an Individual Education Plan and Student Support Group which meet quarterly
- Yea High School networks with the Koori Engagement Support Officer to provide information to students and the community, provide student voice and agency, as well as being a member of the Student Support Group where required
- Yea High School main campus displays the Aboriginal and Torres Strait Islander flag in the main building and an acknowledgement of country in the General Office.
- At the start of all formal events involving the whole-school and/or community, Yea High School gives an acknowledgement of country.

Student empowerment

To support child safety and wellbeing at Yea High School, we work to create an inclusive and supportive environment that encourages students and families to contribute to our child safety approach and understand their rights and their responsibilities.

Respectful relationships between students are reinforced and we encourage strong friendships and peer support in the school to ensure a sense of belonging.

Whole-school approach:

- Student and parent/guardian are made aware of and are required to acknowledge Yea High School's Code of Conduct. Signed acknowledgement by student and parent/guardian is required at enrolment.
- School values are addressed in Advisory and Personal Development classes across all campuses where student voice provides input and adjustments are made
- Staff receive professional development on and plan to model the key values of the school to students

Yea High School

Child Safety Policy

- School values influence the Behaviour Guidelines which outlines the expected behaviours of all staff and students
- Respectful relationships are taught in Health (Yea High School main campus only)
- Yea High School have been selected for the DET Respectful Relationships training program for 2023.

We inform students of their rights through the school's Behaviour Guidelines, Behaviour Management and the student Code of Conduct, giving them the skills and confidence to recognise unsafe situations with adults or other students and to speak up and act on concerns relating to themselves or their peers. We ensure our students know who to talk to if they are worried or feeling unsafe and we encourage them to share concerns with a trusted adult at any time. Students and families can also access information on how to report concerns at the school front office or on the school's website.

When the school is gathering information in relation to a complaint about alleged misconduct or abuse of a child, we will listen to the complainant's account and take them seriously, check our understanding of the complaint, support the student and keep them (and their parents and carers, as appropriate) informed about progress.

Yea High School recognises the important of friendships and encourage support from peers, to help students feel safe and be less isolated. Yea High School has an ongoing commitment to providing wellbeing programs which empower students and develop their capacity to provide support to one another. Through our Advisory structure and advisors at each year level, we have developed a culture of participation and respond to student voice.

Family engagement

Our families and the school community have an important role in monitoring and promoting children's safety and wellbeing and helping children to raise any concerns.

To support family engagement, at Yea High School we are committed to providing families and community with accessible information about our school's child safe policies and practices and involving them in our approach to child safety and wellbeing.

We will create opportunities for families to have input into the development and review of our child safety policies and practices and encourage them to raise any concerns and ideas for improvement.

We do this by:

- Yea High School seeks input from families and the community through school council, newsletters and parent/teacher meetings
- all of our child safety policies and procedures will be available for students and parents on the [Yea High School website](#), Compass portal through [School Documentation](#) or via the school office
- Newsletters will inform families and the school community about any significant updates to our child safety policies or processes, and strategies or initiatives that we are taking to ensure student safety.
- PROTECT Child Safety posters will be displayed across the school. These can be found in the main building. Additional child safety material is displayed in the wellbeing hub and adjacent to the sickbay. AYCE centres, posters are displayed in Room 3 Wantirna Campus, Learning Space Geelong/Epping Campus.

We have clear pathways for raising complaints and concerns and responding and this is documented in our school's [Complaint Policy](#).

If there is an incident, disclosure, allegation or suspicion of child abuse, all staff and volunteers (including school council representatives) must follow our [Child Safety Responding and Reporting Obligations Policy and Procedures](#). Our policy and procedures address complaints and concerns of child abuse made by or in relation to a child or student, school staff, volunteers, contractors, service providers, visitors or any other person while connected to the school.

As soon as any immediate health and safety concerns are addressed, and relevant school staff have been informed, we will ensure our school follows:
